PROFILE

Seeking a Thermoforming Operator position in a reputable food packaging and containers solutions company where my extensive experience and leadership skills can contribute to maintaining high-quality standards, ensuring food safety, and implementing effective SOPs and validation processes.

EXPERIENCE

2013-Present

Albayader International Company, Dubai,UAE

THERMOFORMING OPERATOR & QUALITY CONTROL TEAM LEADER

- Operated thermoforming machines to produce food-grade plastic packaging products.
- Led a team of quality control inspectors in conducting thorough inspections to ensure compliance with food safety regulations and quality standards.
- Monitored machine operations to maintain production efficiency and product consistency.
- Conducted comprehensive quality control checks at all stages of production to uphold food safety and quality standards.
- Developed and implemented Standard Operating Procedures (SOPs) for production and quality control processes.
- Prepared validation reports to document compliance with regulatory requirements and internal quality standards.
- Maintained detailed records of production data, inspection reports, SOPs, and validation reports for regulatory compliance and analysis.
- Collaborated closely with cross-functional teams to implement corrective actions, continuous improvement initiatives, and ensure SOP adherence.
- Ensured strict adherence to food safety regulations, SOPs, and company policies to safeguard the integrity of food products.

CERTIFICATES

- 9-Year Experience Certificate from Albayader International Company
