April 2022 - Present  
Amman, Jordan

### Production Engineer

Diamond Plastic Factories

#### Achievements/Tasks

- Produce and forming the polypropylene (P.P) and Polyethylene terephthalate (PET) in the machines.
- Quality control of the samples produced by Sheet Extrusion Line (Meaf Brand) and thermo forming machines.
- Supervising the productive process and solving the problems that may occur during it.
- Setting standards for improving the production process.

July 2018 - April 2022  
Amman, Jordan

## TRAINING BACKGROUND

Pharma International

Troubleshooting and Maintaining various and different models of machines.

May 2017 - July 2017

## COURSES

- Electrical Elevators. 24 HOURS FOR ONE MONTH. Jan 2015 - Feb 2018
- Design Comprehensive Mechanical Systems (HVAC, Fire fighting, Plumbing). 80 HOURS FOR 2 MONTHS Oct 2018 - Dec 2018
- AutoCad Program. 24 HOURS FOR ONE MONTH Dec 2018 - Jan 2019
- Operation and Maintenance of DMK Thermoforming machine. 80 HOURS FOR ONE MONTH Apr 2022 - May 2022

## EDUCATION

**Bachelor degree in Mechanical Engineering**  
University Of Jordan

August 2013-May 2018

## SKILLS

- Ability to effectively lead teams, plan and identify problems.
- Able to handle responsibilities, work under pressure and meet deadlines.
- Full knowledge of the sheet Extrusion Line and thermo forming machines.
- Responsible for operational production planning and programs that are consistent with the organization's main objectives.
- Coordination with the maintenance department in monitoring the productivity of machines.
- Manpower training and work to develop performance and increase productivity.
- Provide full product with quality and quantity required.
